# About SELF

I am proud to present the 2015 . 2016 Annual Report

## INTRODUCTION

The Social Education & Liberty Foundation (SELF) is a local, non-profit and non-governmental organization. Established in 2014, SELF NGO is a national NGO with its headquarters in Delhi. SELF offers various fields like education, health and many more which is provided to underprivileged children, women, senior citizens, disable person, adults and drop-out students. Our main objective is to provide education to these people and to give equal opportunity to those people who are very weak, both financially and physically. We aim to create an environment for holistic approach and welfare by re-energizing the potential workforce by enhancing skills, higher productivity and providing gainful employment to professionals.

The organization is intended to address the social and economic problems the young people face. Unemployment, lack of education and health is just a few among those critical issues that disturb the life and progress of local boys and girls. The main purpose of the organisation is to transform local youth, provide them with the opportunities and education, enhance their physical/mental wellbeing and help them participate in development activities and enrich them with the skills and knowledge to overcome socio-economical predicaments.

Over the time, SELF programmers have grown and diversified to also cover medical services, nutrition, vocational training, provision of day care and non- formal education to the underprivileged children of Delhi and the surrounding areas.

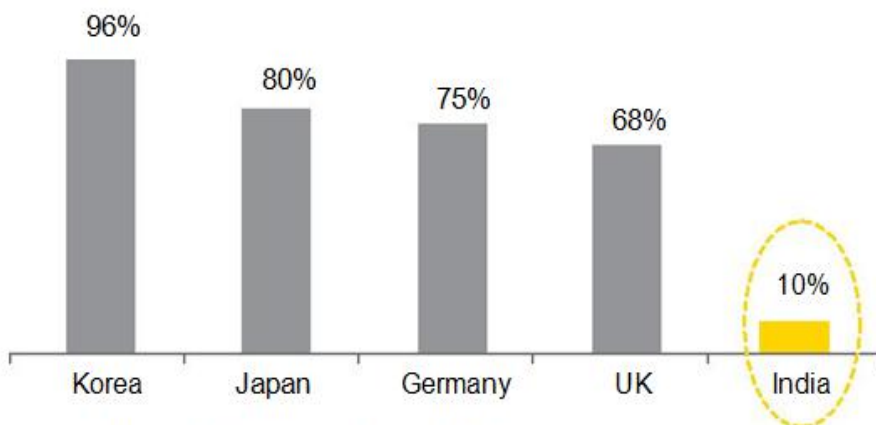

The skill development of the working population is a priority for the government. This is evident by the exceptional progress India has witnessed under the National Policy on Skills (2009) over the years. The objective of the policy is to expand on outreach, equity and access of education and training, which it has aimed to fulfill by establishing several industrial training institutes (ITIs), vocational schools, technical schools, polytechnics and professional colleges to facilitate adult leaning, apprenticeships, sector-specific skill development, e-learning, training for self employment and other forms of training. The government therefore provides holistic sustenance through all its initiatives in the form of necessary financial support, infrastructure support and policy support.

Tab 2

Following a partnership with **Human Care Foundation** and **ISDP**, we now reach out to support children who are destitute, deviant or court committed. Educational and value-based enrichment programmes are conducted for them and cultural functions are celebrated with them to boost their morale. Furthermore, the overload of information and choices may confuse the learner compelling him/her to make hasty and conflicting career decisions. A regional career and counselling. Window under the guidance of professionals can provide the right information, career counselling, direction and confidence to the learner regarding the optimum options of vocational education apt for him/her. Such a system would eliminate uncertainty in the mind of the learner and enable him/her to disregard futile incentives and prudently choose her or his educational direction in accordance with the individual's Inner competencies. We firmly believe that for the success of any development related project it is essential to comprehend the perceptions of the target group and design the project accordingly. We also put a lot of emphasis on the integration of indigenous and local knowledge with the modern technological methods to arrive at appropriate solutions. We are also convinced that information-sharing among various participants in the development efforts can save a lot of valuable time and effort of all those involved. It will also benefit in terms of better informed and streamlined efforts. Hence we intend to create a forum for sharing of wide-ranging information related to our areas of operation. We are determined to work for long-term and sustainable solutions to various development-related issues. Most of our work is aimed at the welfare of people residing in rural, urban and slums areas as the major part of the population (Poorest of Poor) of our country resides there. Wide perception, discretion, innovation, possibilities analysts' capability, concern for the cause and benefits are the ingredients of any efficient research. We bring in all these ingredients and are able to conceptualize and bring the most relevant field survey and research based recommendations for effective action. Our key strength lies in the familiarity and extensive knowledge of our professionals in advanced research and survey techniques applicable in different contexts.

### 1. ORIENTATION PROGRAMME ON SURVIVAL AND DEVELOPMENT OF GIRL CHILD

Date  
11-May  
To  
15-May  
New  
Delhi  
2015

**Objective** - The Constitution of India offers all citizens, including children, certain basic fundamental rights like the right to life and liberty, right to equality, right to freedom of speech and expression, right against exploitation etc. however, the situation of children, particularly girls in India is unsatisfactory. In the Census 2011, it was observed that child population declined by 2.4 percentage points in rural areas and 1.6 percentage points in urban areas. There has also been a considerable fall in the Child Sex Ration from 927 in the year 2001 to 919 in the year 2011. The Sex Ration being 943 females per 1000 males in the 2011 Census.

**Vision & Mission** – The Ministry of Women and Child Development (MWCD), being the nodal agency for women and children works in a holistic manner to protect their rights and addresses the challenges faced by them through multifaceted schemes and programmes. The Integrated Child Development Services (ICDS) Scheme has been in operation since 1975 and addresses the health, nutrition and development needs of young children, pregnant and nursing mothers.

**Contents** – The programme contents would broadly cover; status of children in India with special emphasis on girl child; causes and consequences of gender discrimination at early childhood and remedial measures; prevention of sex determination; child marriage; prevention measures on violence/abuse of girl child; child trafficking; life skills for adolescent girls; communication strategy for survival and development; child rights; legislations; policies/ programmes for girls child etc.

Social Education and Liberty Foundation (NGO) conducting cultural activities with ISDP to organised summer camp for all age group students at free of cost.

Objective- Arts and crafts can be fun things to do with kids, but when you engage your children in these kinds of kids' activities, you are also ensuring that they enjoy a wide range of different benefits. At social education and liberty foundation, we have decided to highlight below some of the benefits of craft for children.

Vision & Mission - **1. Arts and craft for kids boost creativity:** Kids activities that allow your kid to think creatively will engage their imagination and help them to develop their own perspective. Coming up with ideas for crafty things to do with kids and working out how to complete these arts and craft for kid's projects will help your child to become more inventive and thoughtful, which will help them in all areas of their life and education.

**2. Creativity can make kids happier:** Expressing emotions in arts and craft can help children, and adults, to feel calmer and happier. It can be a great outlet for kids to work through any problems.

**3. Arts and craft for kids is great for child development:** Craft offers plenty of things to do with kids that will allow them to practice important skills, such as coordination, fine motor skills and understanding shapes and colours.

**4. Focusing on crafty kids activities builds patience:** Following instructions and learning how to use complex techniques to complete crafty kid's activities can help children to become more patient, particularly when it comes to tasks they find hard to master, or long projects that require a big effort to finish.

**PARTICIPATE OF STUDENTS – 500 (ALL AGE GROUP'S), PRESENT BY – MR.PIYUSH ROY (FOUNDER) & MR.SIDHARTH GARG (FOUNDER ISDP) AND SUPPORTING STAFF MEMBERS. 20 TYPES OF ACTIVITIES ARE HELD ON SUMMER CAMP DURING TIME PERIOD.**

# CAPACITY BUILDING WORKSHOP FOR NGOs

## Report Notebook

Tab 9

### 3. DEVELOPMENT OF CAPABILITY STATEMENT

(Date 17<sup>th</sup> August, 2015)

At present the NGOs are being asked to design, develop and engineer multifarious Knowledge-based Interventions either as a part of the pre-requisite criteria while bidding for the assignment or as an element of the program that is to be implemented.

We are making an effort to make you acquainted with some of these Knowledge based Interventions-

Many of the Funding Partners or Facilitating Agencies are asking for the Knowledge Documents development by the NGOs for the enlightenment of their internal functionaries as well as for their Community Based Partners. In such knowledge documents, you have to cover one or more issues that are relevant to your area of functioning. In other words the Knowledge documents should have relevance with the roles and responsibilities of the functionaries of your organisation.

The term INSTITUTIONAL TRANSPARENCY is becoming very popular now days. It is desired by your funding partners and assignment providers that you organization should maintain Institutional Transparency. To be precise every functionary of your organisation should be well aware regarding the process flow that is adopted while implementing each and every significant task of your organization.

External Evaluation Report (EER) has emerged as the most important document in the development sector. For getting any significant project, prestigious assignment or getting empanelled under any reputed body of high stature; you need to submit an External Evaluation Report of your organization.

In the present scenario it is desirable for an organization to attach a report on IMPACT ANALYSIS, while submitting a proposal, EOI or application to a Funding Partners, Assignment Provider or Facilitating Agency.

While writing the impact of the interventions of your project, never highlight the developmental progression of the direct beneficiaries of your project. Rather try to portray the development incurred by the people of the community who were not your direct beneficiaries. Try to establish the chain reaction by which the development of your direct beneficiaries has in turn facilitated the development of the human resource of the community and the natural resource of the community.

- Growth of the local economy.
- Development of Community based Infrastructural Facilities.
- Social Solidarity among the people of the Community.
- Development of human resource from the perspective of competency.
- Positive influence of the interventions upon the natural resource of the community.
